MEMORANDUM FOR: Director, Photographic Intelligence Center

SUBJECT: Reported Photography of Unidentified Flying Objects

REFERENCE: Your memorandum PIC-7-58, dated 1 October 1958, Same Subject

1. The following information is supplied in answer to the referenced memorandum.

2. OSI has an interest in keeping track of UFO's, however, the over-all community responsibility for a) investigating UFO's and b) handling all information releases to the public is vested in the Department of the Air Force. The Agency, from the Director on down, has recently been flooded by queries concerning UFO's as a result of the declassification of a portion of the "Flying Saucer Report of January 1953." All of these have been referred, with only acknowledgment by us, to Major Lawrence J. Tacker, USAF, SAFIS, Room 4C916, Pentagon, who has the public relations responsibility for the Air Force. When some problem of investigation comes up, we normally refer the matter to Mr. J. H. Gilmore of AFCIN, Room 4B914, Pentagon. If it is agreeable with you, we would like to refer a copy of your memorandum to Mr. Gilmore so that the appropriate investigation of this matter may be made for the benefit of the entire community.

3. This, I think, answers your query regarding the UFO photographs that Mr. Fine purportedly has. I assume that this matter would be entirely separate from the problem of Mr. Fine's new films and emulsions, which you undoubtedly would handle through your normal channels.

4. Thank you very much for calling this matter to our attention. I will await a telephone call from either you or Mr. Stallings before sending a copy of your memorandum to Mr. Gilmore.
